

Microsoft Azure Certification BootCamp for AZ-500 (Azure Security Technologies)

Duration: 5 Days

DESCRIPTION

In this course, students will gain the knowledge and skills needed to implement security controls, maintain the security posture, and identify and remediate vulnerabilities by using a variety of security tools. The course covers scripting and automation, virtualization, and cloud N-tier architecture.

As a Microsoft Azure security engineer, candidates often serve as part of a larger team dedicated to cloud-based management and security and may also secure hybrid environments as part of an end-to-end infrastructure.

Candidates for this exam should have strong skills in scripting and automation, a deep understanding of networking, virtualization, and cloud N-tier architecture, and a strong familiarity with cloud capabilities, Microsoft Azure products and services, and other Microsoft products and services.

OBJECTIVES

After completing this course, students will be able to:

- Describe specialized data classifications on Azure
- Identify Azure data protection mechanisms
- Implement Azure data encryption methods
- Secure Internet protocols and how to implement them on Azure
- Describe Azure security services and features

COURSE OUTLINE

- ➔ Module 1: Identity and Access
- ➔ Module 2: Platform Protection
- ➔ Module 3: Security Operations
- ➔ Module 4: Data and applications

WHO SHOULD ATTEND

- Azure Professionals working on Security aspects
- Cloud Professionals / Architects

PREREQUISITES

Before attending this course, students must have knowledge of:

- Microsoft Azure Administrator Associate

TESTIMONIALS

“ The trainer was very thorough and explained the intricacies involved very clearly. In fact, I was quite new to Cloud. Lot of topics have been covered during the training. The labs were quite interesting and well written.

Srividhya Subramony
(Director, Iposa Consulting Pvt. Ltd.)

“ CloudThat trainers were very competent in explaining the concepts on Azure Cloud and relating them with practical use cases which we have in our projects.

- Ankush (Technical Lead, Wipro)

“ CloudThat - The best place to learn Cloud Computing technologies. Trainers at CloudThat have indepth knowledge about the subject. The way they explain is too good. They give personal attention to all candidates and keep the sessions interactive. ”

- Gladwin (Cloud Admin, Cognizant)
